School Management System

Introduction

- School ERP provides user-friendly dashboards with login access for teachers, non- teaching staff, students, parents and management personnel of your institution. Facilitate all the processes of your institution, from admission of new students to add/edit all the details when students take admission . Services has modules to manage Timetable, Attendance, Examinations, Gradebooks, Campus News, School Calendar, Events and many more. It has a fully-fledged Human Resource module to manage the employee related information . The module helps you to plan and allot different fee structures to students. School ERP With GPS Tracking Software.

- Here Management can access information about all branches with there activity and schedule of the institute in one click

- School solution

SMS(school management software)

Mobile App
BENEFITS WE PROVIDE !!!

Mobile app

We have application on android for parents which help the to access the all information regarding there children's

Benefit of School mobile app for Parent module is crafted for handling the activities of their child. Parents can interact with faculty, management directly. They can look out their child timetable, daily schedule, Exams report, weekly attendance. Overall this Module will work as a bridge between Schools and their Children. Parents can be in frequent touch of the teachers to keep a check on their teaching abilities. School ERP allows easy and transparent mode of interaction between teachers and management. Parents can access all the information which are going on in the school and can make to work their ward accordingly. If student's fees is pending, parents would get informed via SMS. With the help of this service marks, all events information and performance of their ward can be viewed by parents

By unique school id provided by us you can login and than by using username and password you can easily access the application
